

## krismasi njema!

Yep, you guessed it – that's Kiswahili for happy Christmas! And it really is a happy one at Kesho as the mamas and kids settle into the near-completed village. But there are still final fit-out and operating costs that need covering, and that's where you come in. Instead of bath salts and socks, give your loved ones an **fws eco-friendly e-greeting** this silly season, and make a big difference to the Kesho kids' and mamas' lives. Choose your gift, then download an utterly adorable e-greeting – giraffe, monkey, elephant or crocodile designs – to send to your special someone. It's that easy! Joy, peace and love to you all from everyone at **fws**, and thank you for your amazing support.
